Journal of Computer-Based Instruction
Summer 1982, Vol. 9, No. 1, 32-53.

CUMULATIVE INDEX: VOLUMES 1 - 8

CHRONOLOGICAL TITLE INDEX

Volume 1, Number 1 - August 1974 (Back issue not available)

A Study of the Use of Computer Simulated Experiments in the Physics Classroom 1
William R. Hughes

How Should Computers Be Used in Learning? 7
Stuart Milner and A. M. Wildberger

A Study of the Effects of Varying Student Responsibility for Instructional Decisions in a CAI Course 13
Arthur L. White and Douglas D. Smith

A Tailored Testing Model Employing the Beta Distribution and Conditional Difficulties 22
Stanley J. Kalisch

Obstacles to Widespread Use of Computer-Based Curricular Innovations: A Review 28
Robert J. Seidel, Beverly Hunter, Carol Kastner, and Martin Rubin

Computer-Based Instruction of Introductory Statistics 32
Russell V. Skavaril

Volume 1, Number 2 - November 1974

Using Computer-Assisted Instruction To Test the Relative Effectiveness of Prompting and Conformation as Instructional Strategies 41
Karl G. Borman and Keith A. Hall

Computer Simulated Qualitative Analysis Without Flowsheets 46
George A. Gerhold and Donald M. King

On Scoring a Mastery Learning System Control Test 50
E. N. Adams

A Model for Administration of Computing Services and Facilities in a University Environment 59
Ruann E. Pengov

ADCIS Institutional Member Report: CBI in Medicine at the University of Alberta 64
L. W. Osbaldeston

Book Review: *Computer-Assisted Test Construction* 68
Stanley J. Kalisch

Volume 1, Number 3 - February 1975

Ten Pitfalls in CMI Development 70
G. Douglas Mayo

Teaching the Principles of Software Systems on a Minicomputer 73
Stanley Y. W. Su and Ahmed E. Emam

Analyzing Algebraic Expressions and Equations 80
Barbara J. Lederman

ADCIS Institutional Member Report: Florida State University 84
John R. Merrill, Nelson J. Towle and Paul F. Merrill

Volume 1, Number 4 - May 1975

Sequential Testing for Instructional Classification 92
David B. Thomas

GUIDO: An Interactive Computer-Based System for Improvement of Instruction and Research in Ear Training 100
Fred T. Hofstetter

A Natural Language Computer-Based Tutor 107
Alan L. Tharp, Alen D. Baker and Stephen C. Perry

Modeling the Learner in Computer-Assisted Instruction 118
J. D. Fletcher

ADCIS Institutional Member Report: Statewide Project for the Deaf 127
Lynda Culbertson

Index to Volume 1 ..... A-5

Volume 2, Number 1 - August 1975

Teaching Research Methods with a Computer-Based Model of Group-Induced Shifts 1
Neil M. Malamuth, Gerald H. Shure and Shawn A. Johnston.

Ten More Pitfalls in CMI Development 11
Gerald Lippey

Abstracts of the Summer 1975 ADCIS Meeting in Portland, Maine 15

Volume 2, Number 2 - November 1975

Observations on Teaching a Graduate Course in Computer Assisted Instruction/Computer Managed Instruction 30
Robert M. Aiken

Learning To Teach Via Teaching the Computer To Teach 36
Alfred Bork

Learning Outcomes: Criteria for Accountability in the Training and Functions of Instructional Programmers 40
Jeanne L. Burson

Project Skill: Training in CAI Unit Development 48
Marsha Young

Volume 2, Number 3 - February 1976

A CAI Simulation Program for Teaching IRI Techniques 52
Michael H. Roe and Robert M. Aiken

Increasing Medical Student Performance with an Interactive, Computer-Assisted Appraisal System 57
Les A. Jones and W. E. Sorlie

Automated Flanders Interaction Analysis 63
K. M. Swigger

Two Specialized Notation Compilers for CAI on Minicomputers 67
George A. Gerhold

Integration of Prepackaged Computer Programs into an Undergraduate Introductory Statistics Course 73
Frank Scalzo and Rowland Hughes

Book Review: *Learning Alternatives in U.S. Education: Where Student and Computer Meet* 80
Sema Marks

Volume 2, Number 4 - May 1976

The Attitudes of Medical School Administrators Toward Cost Factors Relating to Computer-Assisted Instruction 83
Mary Carter Williams and Stuart D. Milner

Teaching with A Programming Language: An Example in Statistics 95
Peter Braun

Abstracts of the Winter 1976 ADCIS Conference in Santa Barbara, California 103

Index to Volume 2 . . . . . D-5

Volume 3, Number 1 - August 1976

The Stanford Project on Computer-Assisted Instruction for Hearing-Impaired Students 1
J. D. Fletcher and Patrick Suppes

The Use of CAI To Provide Problems for Students in Introductory Genetics 13
Russell V. Skavaril, C. William Birky, Jr., Richard E. Dunrkopf and Jeffrey A. Knight

Foundation, Organization, and Purpose of the National Consortium for Computer-Based Musical Instruction 21
Fred T. Hofstetter

Volume 3, Number 2 - November 1976

Some "Facts" about CAI: A Quantitative Analysis of the 1976 *Index to Computer-Based Instruction* 34
Greg P. Kearsley

QUEST: A Teaching Program Driver 42
Christopher R. Brigham, John D. Halverson and Joan Zimmerman

The Interactive Scheduling of Teaching Assistants 51
R. J. Munn and L. C. Satek

Computer Augmentation of the CAI Courseware Authoring Process — The CAI Design System 59
James A. Schuyler

Volume 3, Number 3 - February 1977 (Back issue not available)

A Research Model for Applying Computer Technology to the Interactive Instructional Process 68
Keith A. Hall

Faculty Perspectives on Computer-Based Education 76
Peter A. Wollitzer

Review of Student Control in Computer-Assisted Instruction 84
Esther R. Steinberg

Computer Simulations as a Teaching Tool in Biology 91
Howard Rubin, Jacob Geller and Jess Hanks

Learning Mathematics with Recursive Computer Programs 97
Howard A. Peelle

Volume 3, Number 4 - May 1977 (Special Mini Computer Issue)

CAI Debut in the World of General Software 103
Emile Attala

SAL — A Simple Author Language for a Minicomputer Assisted Instruction System 107
Robert D. Henry and James A. Howard

Maxi Authoring Languages in the Era of the Mini 115
Stephen K. Lower

Utilization of Educationally Orientated Microcomputer Based Laboratories 123
Michael J. Fitzpatrick and James A. Howard

Four-Bits an Hour Timesharing 127
Melvin Davidson

Index to Volume 3 ..... D-7

Volume 4, Number 1 - August 1977

The First Annual Dean Lecture. Why CBI? An Examination of the Case for Computer-Based Instruction 1
Peter M. Dean

Some Conceptual Issues in Computer-Assisted Instruction 8
Greg P. Kearsley

A Computer-Managed Instruction Support System for Large Group Individualized Instruction 17
Terry Countermine and Jane M. Singh

A Comparison of Computer-Managed Instruction and Lecture Mode for Teaching Basic Statistics 22
Paul N. Dixon and Wilson A. Judd

Volume 4, Number 2 - November 1977

Computer-Assisted Instructional Programs To Facilitate Mathematical Learning among the Handicapped 26
S. John Vitello and Patricia Bruce

Computer-Aided Assignments in Electrical Engineering Education 30
W. J. Smolinski

Rationale for and Evaluation of a CAI Tutorial in a Removable Partial Prosthodontics Classification System 34
Daniel E. Tira

Cost Considerations for Computer-Assisted Text Compression 43
Norman F. Salt and Ronald G. Ragsdale

Organizational Structuring of CAL Agencies: A Review 48
Mark Leiblum

ERIC Research Abstracts 54

Volume 4, Number 3 - February 1978

Presidential Address. 1978 Annual Conference of the Association for the Development of Computer-Based Instructional Systems 56
Karen A. Duncan

Second Annual Dean Lecture. The Art of Science: Professionalism in CBI (Or Standing on Each Other's Feet) 59
Michael W. Allen

Abstracts of the 1978 Annual ADCIS Conference in Dallas, Texas 64

Volume 4, Number 4 - May 1978

Computerized Patient Management Problems as Part of the Pediatric Certifying Examination 79
Ernest N. Skakun, William C. Taylor, and Donald R. Wilson

A Feasibility Study in the Use of Computers in Non-Formal Education in Brazil 84
Peter J. Rizza, Jr. and John E. Searles

An Experiment in Architectural Instruction 93
Robert W. Dvorak

A CAI Module for Evaluation and Improvement of Questioning Skills through Simulation 97
K. M. Swigger

Index to Volume 4 . . . . . D-5

Volume 5, Numbers 1 and 2 - August and November 1978
(The Yearbook of Computer-Based Music Instruction)

Proposal for a Notation To Be Used in Encoding Musical Texts for Computer Programming 1
Martin Prevel

A National Survey on the Uses of, and Attitudes Toward Programed Instruction and Computers in Public School and College Music Education 11
Jack A. Taylor and James W. Parrish

Random Access Audio in Computer-Assisted Instruction 22
John M. Eddins

Computerized Aural Training: An Interactive System Designed To Help Both Teachers and Students 30
M. R. Lamb and R. H. T. Bates

An Examination of Computer-Based Educational Hardware at Twenty-Eight NCCBMI Member Schools 38
Michael A. Arenson

Applications of Computers to Music Pedagogy, Analysis, and Research: A Selected Bibliography 41
G. David Peters and John M. Eddins

Volume 5, Number 3 - February 1979

Interactive Computer Simulation of Reading Skill Weaknesses 45
Vicki A. Boysen, Rex A. Thomas, and W. Paul Mortenson

The University of Illinois Basic Medical Sciences PLATO IV Project - An Evaluation 50
William E. Sorlie and Diane L. Essex

An Evaluation of Computer-Aided Instruction in an Introductory Biostatistics Course 57
Alan B. Forsythe and James R. Freed

Management of Computer-Based Instruction: Design of an Adaptive Control Strategy 63
Robert D. Tennyson and Wolfgang Rothen

Evaluating PLATO in the Teaching of Computer Science 72
Richard G. Montanelli, Jr.

ERIC Research Abstracts 77

Volume 5, Number 4 - May 1979

Computer-Based Inquiry into Scientific Problem Solving 79
Melissa S. Berkowitz and Michael Szabo

Cognitive Theory, CAI, and Spelling Improvement 86
Karen K. Block

A Minicomputer Software System for Administering Interactive Instructional Programs Via Two-Way Cable Television 96
Jayne W. Zenaty, Martin P. Block, John B. Eulenberg, and Eric S. Smith

Index to Volume 5 . . . . . D-4

Volume 6, Number 1 - August 1979

Presidential Address. 1979 Annual Conference of the Association for the Development of Computer-Based Instructional Systems 1
Karen A. Duncan

Third Annual Dean Lecture. The Future of Computers in Education 5
Patrick Suppes

Intelligent Videodisc and the Learning Society 11
Andrew R. Molner

Abstracts of the 1979 Annual ADCIS Conference in San Diego, California 17

Volume 6, Number 2 - November 1979

TICCIT to the Future: Advances in Instructional Theory for CAI 40
Charles M. Reigeluth

CAI Readiness Checklist: Formative Author-Evaluation of CAI Lessons 47
Cherry McPherson-Turner

The Effect of Display Rate and Memory Support on Correct Responses, Trials, Total Instructional Time and Response Latency in a Computer-Based Learning Environment 50
Verl E. Dennis

GERAD: An Adjective Morphology Teaching Program 55
K. Ahmad and M. Rogers

ERIC Research Abstracts 60

Volume 6, Number 3 - February 1980
(The Yearbook of Computer-Based Music Instruction - II)

Developments in Computer Based Music Instruction and Research at Indiana University 62
Gary E. Wittlich

Integration of CAI into a Music Program 72
Roger Foltz and Dorothy Gross

Low-Cost, Computer-Assisted Ear Training 77
Martin Prevel

Development of a Concept-Centered Ear-Training CAI System 79
Robert W. Ottman, Rosemary N. Killam, Robert M. Adams, W. Kenton Bales, Steven V. Bertsche, Leslie C. Gay, Donald B. Marshall, Daniel A. Peak, and Douglas Ray

Review of Audio Interfacing Literature for Computer-Assisted Music Instruction 87
Nan Watanabe

The Effects of Computer-Assisted Aural Drill Time on Achievement in Musical Interval Identification 91
James A. Humphries

A Model for Integrating Computer-Assisted Instruction Materials into the Music Curriculum 99
Robert W. Placek

Volume 6, Number 4 - May 1980

Artificial Intelligence Approaches to Computer-Based Instruction 106
William S. Breger and Arthur M. Farley

Active External Control: A Basis for Superiority of CBI 115
Allen Avner, Carolynn Moore, and Stanley Smith

IPS: A New Authoring Language for Computer-Assisted Instruction 119
Stephen L. Lower

Effectiveness of a Computer-Based Feedback System for Writing 125
Kamala Anandam, Ed Eisel, and Lorne Kotler

Index to Volume 6 ..... D-4

Volume 7, Number 1 - August 1980

Presidential Address. 1980 Annual Conference of the Association for the Development of Computer-Based Instructional Systems 1
Karen A. Duncan

JCBI: Editor's Report for 1979 5
Keith A. Hall

FLUID/MASHOV — A CAI System Based on Games, Dialogue and Feedback 8
Joseph Regev

Abstracts of the 1980 Annual ADCIS Conference in Washington, D.C. 12

Volume 7, Number 2 - November 1980

Principles of Instructional Design Applied to an Introductory Course on Educational Computing 26
James J. L'Allier and Robert D. Tennyson

Using a Semantic Information Network To Develop Computer Literacy 33
Stewart A. Denenberg

A Data Bank Experience on the PLATO System 41
Wallace Schwab and Richard St-Denis

Computer Assisted Instruction: Factors Affecting Courseware Development 47
Jerry W. Sprecher and Jack A. Chambers

Volume 7, Number 3 - February 1981
(The Yearbook of Computer-Based Music Instruction - III)

NEWNOTE: Printing Choral Music by Computer 58
Leonard R. Rumery

MEDICI: Tutorial in Melodic Dictation 63
Steven R. Newcomb, Bradley W. Weage, and Peter Spencer

An Introductory Course in Computer-Assisted Music Analysis: The Computer and the Bach Chorales 70
Ann K. Blombach

A Model for Systematic Revision of Computer-Based Instruction Materials in Music Theory 78
Michael Arenson

Computer-Based Aural Training: The GUIDO System 84
Fred T. Hofstetter

Volume 7, Number 4 - May 1981

Peter Dean Lecture. On the Importance of Theory in Applying Technology to Education 93
Harold E. Mitzel

Implications of Whole-Brained Theories of Learning and Thinking for Computer-Based Instruction 99
E. Paul Torrance

Teachers and Computers 106
Sharon P. Robinson

The Effect of Instructional Sequence on Performance in Computer-Based Instruction 111
George F. Lahey

Professional Report. Survey for Master's Level Curriculum 117
Esther R. Steinberg

Professional Report. Publication Practices for Microcomputer Programs 123
Constance Curtin

Announcing the *JCBI* Book Review 130
Joan L. Hayes

Index to Volume 7 ..... D-5

CUMULATIVE INDEX — TITLE

Volume 8, Number 1 - August 1981

Effects of Instructional Backgrounds on Test Performances 1
Kikumi Tatsuoka and Menucha Birenbaum

Interactive Effects of Prior Knowledge of "Credit Costs" Concepts and Math Skills and Mode of Programmed Instruction 9
Diane M. Masuo and Burt A. Furuta

A Comparison of the Effects of Computer-Assisted Instruction Versus Printed Instruction on Student Learning in the Cognitive Categories of Knowledge and Application 13
Elaine G. Boettcher, Sylvia F. Alderson, and Michael S. Saccucci

ERIC Research Abstracts 18

Volume 8, Number 2 - November 1981

Evaluation of Computer Speech for Use with CAI for Young Children 22
Geoff Cumming and Mary McCorriston

The Effect of Feedback Delay on Retention of Computer-Based Mathematical Material 28
Patricia Gaynor

Evaluation of a Formal Approach to the Structuring of Subject Matter 35
G. Adorni, M. Di Manzo, and A. L. Frisiani

The Effects of Computer Assisted Instruction upon Computer Facility and Instructor Ratings 43
Avi Rushinek, Sara F. Rushinek, and Joel Stutz

ERIC Research Abstracts 47

Volume 8, Number 3 - February 1982 (Special Aviation Issue)

PLATO Applications in the Airline Industry 49
Tom L. Conkright

Federal Aviation Administration Seventh Year Computer-Based Training Report 53
John A. Buck

Articulate Diagnostic Methods for Analysis of Flight Performance 56
Wallace Feurzeig, George Lukas, and Dan Stefanescu

A Computer-Based Private Pilot (Airplane) Certification Exam: A First Step Toward Nation-Wide Computer-Administration of FAA Certification Exams 65
Richard I. Anderson and Stanley R. Trollip

Volume 8, Number 4 - May 1982

Peter Dean Lecture Computer Support for Public Schools: A Challenge and an Appeal 71
Catherine Morgan

Human Factors Considerations for Computer-Based Training 74
Greg P. Kearsley and Michael J. Hillelsohn

Computer-Based Instruction in Dietetics Education 85
Lois Schroeder and Phyllis Kent

Book Review. *A Planning Guide to Successful Computer Instruction* 91
Esther R. Steinberg

ERIC Research Abstracts 92

Index to Volume 8 94

Back issues may be ordered (except where otherwise indicated) for $6.50 per issue; for foreign destinations add $1.50/copy for surface mail or $3.50/copy for airmail. Send all orders for back issues to ADCIS International Headquarters, 409 Miller Hall, Western Washington University, Bellingham, WA 98225.

AUTHOR INDEX

Key to reading author index -
Author, **volume number** (issue number): page number

Adams, E.N.; **1**(2): 50.
Adams, R.M.; **6**(3): 79.
Adorni, G.; **8**(2): 35.
Ahmad, K.; **6**(2): 55.
Aiken, R.M.; **2**(2): 30, (3): 52.
Alderson, S.F.; **8**(1): 13.
Allen, M.W.; **4**(3): 59.
